

# Dream on

Come on sister take my hand  
Let's go out explore this foreign land  
See the strangely shining sky  
Humming on your favourite lullaby

Days been hard, the days been tough  
I know you're tired, that you had enough  
Night is quiet the night is long  
Tomorrow morning you will feel strong

Dream on,  
Dream strong,  
Dream long till the morning comes

Let the troubles of today just fall away  
Close your eyes, nothing obliges you to stay  
In your dreams, you are free  
Let's take of, lets fly away you and me.

Dream on,  
Dream away,  
Dream long till the break of day

Dream on,  
Dream strong,  
Dream long till the morning comes

Slumber,  
Wander,  
Yonder where the bluebirds sing  
Where the bluebells ring  
Where you can sing  
Where the blue bells ring
