

# Don't Stop Moving

I've got a good beat. I'm in a nice flow  
Walking down the street handing smiles at people I meet  
I dare to say, things are going my way

I'm on a hot spin, on a real boost  
Take all hardships as they come, there's no way I can loose  
Take any way I want, any way I choose

Look up. Don't stop moving.  
Take a look at all the people grooving  
Man must dance don't you know, can't you feel

I'm going downhill. I'm in some kind of a trance  
Can't hold my mind, just got to dance  
Come with me, can't you see the night is waiting for us

I'm on a night stroll. I'm on a winning streak  
Everything comes my way there is nothing I seek  
I'm on top of things. The world lay at my feet

Look up...

There's no right there's no wrong. Just do it your way, do it strong  
Nothing else really matter, what is there to loose  
All roads lead upwards, any one that you choose

I walk alone. I walk on my own.  
I'm a king without a castle. I'm a king without a throne  
From my point of view it's true, can you see it to?

Don't dance alone. Don't dance by yourself  
You are a queen. We are your court. Your beauty is your wealth  
Walk proudly. Walk free, come dance with me
